

MOUNT RINJANI VOLCANO TREKS

3D 2N Crater Rim, Lake and Summit from Sembalun village

This trek is suitable for beginner to experienced trekkers with good fitness.

SCHEDULE

Arrival day: Guests are picked up at their preferred location on Lombok and transferred to the hotel in Senaru where they will stay overnight. That evening, your Trek Coordinator will visit to discuss the coming day's events and planned schedule, which allows guests to know what is required.

Day 1: Wake up at 6:00am and take breakfast. After breakfast, we drive you 1 hour to Sembalun Village where the actual trekking begins.

Trekking commences from Sembalun Village at around 8.00am, and starts with a gentle climb through open fields of low grass with wonderful views of the surrounding mountains and of course Mount Rinjani ahead.

After 2 hours of easy walking, the steepness gradually increases and the terrain becomes more undulating, small trees begin to appear on the landscape and evidence of past lava flows from the volcano appear in small creek beds. We stop for a short rest, then continue on to the next rest point for approximately 40 minutes.

Around mid-day, we stop for a rest and to take lunch which the porters have prepared in advance. Resting alongside an ancient lava flow site, we are at the actual foot of Mount Rinjani, and the climbing is about to begin in earnest. The steep slope requires stepping around boulders thrown out by past eruptions and as we climb further, the path becomes

even steeper. You are welcome to stop at any time and take a rest, enjoying the clouds swirling around you as you climb through the cloud line.

Climbing for a further 3 hours (this is a prolonged steep climb) brings you to the rim of the volcano... the views are spectacular! Well above the clouds and trees, it feels as if you can see forever. We camp here for the night.

Day 2: At 2.00am after a much needed sleep, your guide will wake you in preparation for the final climb to the summit of Mount Rinjani. This early start means you can be at the summit of the volcano at sunrise!

A hot drink and light breakfast, we commence the climb with an easy walk, following a steep ridge along the Crater Rim and then on to a slightly steeper winding path which takes us to the beginning of the prolonged and long volcanic scree and ash section of the climb. The summit is within sight! This is the most difficult section of the climb. You are now only about 400 metres from the summit!

At around 6.00am, with the growing light of sunrise appearing on the horizon, we are at the summit, waiting for the first rays of morning sunshine to strike your skin. It is cold, but your heart is racing as the day dawns and the world appears below you. Clouds in the distance and below you swirl around the volcano.

We spend quite some time at the summit, waiting for the sunlight to shine into the actual crater of the volcano for photographs. In the distance you can see the islands of Bali, and Sumbawa Island to the east.

When you are ready, we commence the easy walk back to the camp site on the rim of the volcano. The brightly coloured tents which mark your camp are clearly visible about 1 kilometre away. The descent to the camp site takes about 2 hours. On arrival the camp site we have breakfast, then the camp site is packed and we commence the descent into the volcano. The descent takes about 3 hours to reach the lake.

MOUNT RINJANI VOLCANO TREKS

Here you can enjoy a swim in the blue water of the lake, or perhaps relax in the hot spring to sooth your muscles. The hot spring is well known for its reputation for natural healing powers! While you enjoy a swim or a float in the hot spring, your porters will prepare your lunch which you can eat on the shore of the lake.

After lunch and a good rest, we commence the climb up to Senaru Crater Rim at a height of 2,641 metres above sea level... this is our camp site for the night. From this vantage point you can see the sun set behind Mount Agung volcano on the island of Bali.

Day 3: After a relaxed breakfast and a beautiful sunrise, we pack camp and commence the descent to Senaru Village, some 5 hours away. The descent takes us down the steep rocky slopes which soon become lush and very dense rainforest, leading us deep into the valleys near the village before we emerge at Senaru Village around lunch time or early afternoon.

If you should wish to provide a small tip to the porters or mountain guide for their service, they will be very appreciative (this is certainly not compulsory)

Your private transfer vehicle will then load your luggage and all possessions and transfer you to your chosen destination on Lombok.

Hint: If your next destination is the Gili Islands, we are happy to make all necessary arrangements for a private speedboat to take you there. Simply notify us when making your trek reservation. The cost of this boat transfer is not included in the cost of your trek.

Trek package includes...

1. Licensed and Experienced:
 - Mountain Guide
 - Local Porters to transport all camping equipment
2. One night's accommodation before the trek at Senaru Village
3. All camping equipment:
 - Accommodation tent
 - Sleeping bags
